T-leg meeting.

Una forma che esprime la sostanza. T-Leg è una collezione di tavoli che prende il nome dalla forma caratteristica della gamba, ispirata ad una funzionalità intelligente. Prodotta in tre colori, bianco, nero e grigio, la gamba è infatti canalizzabile, come anche la trave sottopiano, per alloggiare comodamente i cavi di alimentazione. Non resta che scoprire tutte le combinazioni di forme, gli accessori e le diverse finiture a scelta.

A shape that expresses substance. T-Leg is a collection of tables that takes its name from the characteristic shape of the leg, inspired by intelligent functionality. Produced in three colors, white, black and gray, the leg can be channeled, as can the under-top beam, to conveniently house power electrical cables. All that remains is to discover all the combinations of shapes, accessories and different finishes to choose from.

T-LEG TAVOLI RIUNIONE - T-LEG MEETING TABLES

Mettiamo tutti d'accordo

Let's get everyone to agree

Una silhouette snella e moderna, con forme sagomate o rette, disponibile in profondità 900 mm e in lunghezze variabili, per costruire il proprio spazio riunione ideale, dal più riservato fino alla grande composizione conferenza, creata tramite raccordi angolari. Le finiture, con diverse venature effetto legno oppure con colori pieni, sapranno dialogare con ogni stile di arredamento.

A slim and modern silhouette, with shaped or straight shapes, available in depth 900 mm and in variable lengths, to build your ideal meeting space, from the most private to the large conference composition, created with corner joints. The finishes, with different wood-effect grains or with solid colours, will be able to dialogue with any style of furniture.

 Vertex series wardrobe in melamine with blue and white finish.

T-leg operative.

Le operative T-Leg sono progettate per essere al servizio del comfort, soprattutto quando l'attività prevede prolungate sessioni. Infatti, la gamba è prodotta sia in variante fissa che elevabile, con sistema elettrico oppure con passo-passo manuale; è dunque più facile cambiare spesso postura e adattare la scrivania alle diverse esigenze, per garantire maggiore benessere ed efficienza.

The T-Leg operatives are designed to be at the service of comfort, especially when the activity involves prolonged sessions. In fact, the leg is produced in both fixed and elevating variants, with an electric manual step-by-step system; it is therefore easier to change posture often and adapt the desk to different needs to ensure greater well-being and efficiency.

Tops in melamine taupe finish, white varnished legs.

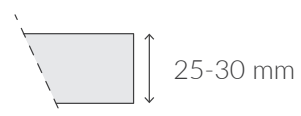

T-LEG SCRIVANIE OPERATIVE - OPERATIVE T-LEG DESKS

Ogni scelta è personale

Every choice is personal

Le scrivanie operative T-Leg diventano lo spazio perfetto per tenere tutto a portata di mano, grazie anche agli allunghi che permettono di creare composizioni personali, con maggiore spazio libero ma anche cassettiere e mobili coplanari. Con i pratici screen, anche fonoassorbenti, è semplice creare spazi condivisi e allo stesso tempo offrire la giusta riservatezza.

T-Leg operative desks become the perfect space to keep everything within reach, thanks also to the extensions that allow for the creation for personal compositions with more free space but also drawers and coplanar furniture. The practical screens which are also sound-absorbent make it is easy to create shared spaces and at the same time offer the right privacy.

Screen in melamine extra finish.
Cube in melamine white and grey finish.

T-LEG OPERATIVE WORKSTATION

Disegnate per collaborare

Designed to collaboration

Le workstation T-Leg, componibili anche con gamba autoportante e con cassetiera, sono sagomate per facilitare l'operatività e adattarsi ad ogni tipo di spazio. Gli screen fonoassorbenti diventano anche un elemento decorativo d'arredo e i tappi passacavi o ulteriori elementi di elettrificazione assicurano più ordine sul piano di lavoro.

The T-Leg workstations, also modular with self-supporting leg and drawers are shaped to facilitate operation and adapt to any type of space. The sound-absorbing screens also become a decorative furnishing element and the cable glands or additional electrification elements ensure greater order on the work surface.

DESCRIZIONI TECNICHE

Tavoli riunione

Piani realizzati in conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore mm 25-30 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore del piano, spessore mm 2 con spigoli arrotondati secondo le norme antinfortunistiche.

Struttura metallica con gambe a “T” rovesciata, fusto verticale in lamiera presso piegata sezione 100x35 con carter interno che permette la salita di eventuali cavi.Trave sotto piano canalizzata, realizzata in lamiera presso piegata sezione 80x35. Travi fissa per i tavoli riunione monoblocco, telescopica per i tavoli riunione composti. Le travi sono verniciate a polveri epossidiche colore grigio, bianco o antracite. Gamboni portanti per raccordi in tubolare sezione 50x50 verniciati a polveri epossidiche colore grigio, bianco o antracite e dotati di piedino livellatore.

Scrivanie e workstation

Piani realizzati in conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore mm 25-30 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore del piano, spessore mm 2 con spigoli arrotondati secondo le norme antinfortunistiche. Struttura metallica con gambe a “T” rovesciata, fusto verticale in lamiera presso piegata sezione 100x35 con carter interno che permette la salita di eventuali cavi. Trave sotto piano canalizzata, realizzata in lamiera presso piegata sezione 80x35. Travi fissa per i tavoli riunione monoblocco, telescopica per i tavoli riunione composti. Le travi sono verniciate a polveri epossidiche colore grigio, bianco o antracite. Gamboni portanti per raccordi in tubolare sezione 50x50 verniciati a polveri epossidiche colore grigio, bianco o antracite e dotati di piedino livellatore. Modesty panel disponibile per applicazione nelle scrivanie delle varie lunghezze in melaminico sp. mm 18.

Cassettiera portante per scrivanie, appendici e workstation

Cassettiera portante Costituita da base, cappello, fianchi e retro realizzata in conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 0.4. Frontali in conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 1. Interno cassetto realizzato in conglomerato ligneo ricoperto in PVC grigio e fondo in MDF sp. 3mm. Sistema di scorrimento su guide metalliche, trattate anticorrosione, a rullo con cuscinetti in nylon, e arresto di fine corsa. I cassetti possono essere dotati di chiusura ammortizzata (opzionale). La cassettera è dotata di 4 piedini regolabili ed è fornita di serratura con chiave pieghevole in duplice copia e chiusura simultanea dei cassetti. Maniglie in plastica colore grigio di serie.

TECHNICAL DESCRIPTIONS

Meeting tables

Tops made of Class E1 formaldehde gas release conglomerated chipboard wood with 25-30 mm thickness and covered with high resistance melamine paper. ABS 2 mm thick perimeter edging in the same colour as the top, the corners are rounded and comply to accident prevention standards. Metal structure with inverted “T shaped” legs, vertical shaft in press-folded sheet metal, sectioned 100x35 with internal casing that allows the ascent of eventual cables. Beam under-top channeled and made of sectioned 80x35 folded sheet metal. Fixed beams for monoblock meeting tables, telescopic for composed meeting tables.

The beams are availabe in grey, white or anthracite epoxy powder coated steel. Load-bearing legs for junctions made of grey, white or anthracite epoxy powder coated tubular sectioned steel 50x50 equipped with leveling foot.

Desks and workstations

Tops made of Class E1 formaldehde gas release conglomerated chipboard wood with 25-30 mm thickness and covered with high resistance melamine paper. ABS 2 mm thick perimeter edging in the same colour as the top, the corners are rounded and comply to accident prevention standards. Metal structure with inverted “T shaped” legs, vertical shaft in press-folded sheet metal, sectioned 100x35 with internal casing that allows the ascent of eventual cables. Beam under-top channeled and made of sectioned 80x35 folded sheet metal. Fixed beams for monoblock meeting tables, telescopic for composed meeting tables. The beams are availabe in grey, white or anthracite epoxy powder coated steel. Load-bearing legs for junctions made of grey, white or anthracite epoxy powder coated tubular sectioned steel 50x50 equipped with leveling foot. Modesty panel available in melamine 18 mm thickness to be applied to desks of various lengths.

Structural drawer unit for desks, return desks and workstations

Structural drawer unit composed of a base, top, sides and back made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 0,4mm thick perimeter edging in the same colour. The fronts are made of E1 formaldehde gas release 18 mm thick conglomerated chipboard wood covered with high resistance melamine paper. 1 mm ABS edging on all sides in the same colour. The inside of the melamine drawers are coated with an aluminium grey PVC finish with MDF 3 mm thickness bottom. Guided system anti corrosion treated metal runners with roller nylon bearings, and end-of-stroke stop. The drawers can be equipped with a cushioned closure (optional). The drawer unit is equipped with 4 adjustable feet and simultaneous drawer locking by means of a foldable key in duplicate copies. The handles are in grey plastic by series.

(Disponibili ulteriori maniglie opzionali). Gamboni portanti per raccordi, appendici e penisole in tubolare sezione 50x50 verniciati a polveri epossidiche colore grigio, bianco o antracite e dotati di piedino livellatore. Schermi frontali di diverse tipologie sono applicabili, tramite staffe in lamiera piegata e verniciata, al sistema desk: In metacrilato dello spessore mm 4. In melaminico dello spessore mm 18 bordato in ABS mm 1 da tutti i lati. In materiale fonoassorbente spessore mm 18 rivestito in tessuto Trevira CS.

Cassettiera e mobile di servizio

Struttura costituita da base, cappello, fianchi e retro realizzata in conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 0.4. Frontali in conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 1, top in melaminico sp. mm 25 bordati in ABS sp. 1 mm. Interno cassetto realizzato in conglomerato ligneo ricoperto in PVC grigio e fondo in MDF sp. 3mm. Sistema di scorrimento su guide metalliche, trattate anticorrosione, a rullo con cuscinetti in nylon, e arresto di fine corsa. I cassetti sono dotati di chiusura ammortizzata. La cassettera è dotata di vaschetta porta cancelleria, 4 ruote piroettanti diametro 65 con freno ed è fornita di serratura con chiave pieghevole in duplice copia e chiusura simultanea dei cassetti. Maniglie in plastica colore grigio di serie. (Disponibili ulteriori maniglie opzionali).

Mobili complanari

Realizzati in conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 0,4. Giunzioni in metallo e piedini livellatori in PVC regolabili dall'interno del mobile tramite perno filettato in acciaio. Retro in conglomerato ligneo spessore mm 18. Ante in conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 1, cerniere in metallo fissate ai fianchi con basetta a triplice regolazione. Top in melaminico sp. mm 25-30 bordati in ABS sp. 2mm. Maniglie in plastica colore grigio di serie. (Disponibili ulteriori maniglie opzionali).

Cassettiere complanari

Costituita da base, cappello, fianchi e retro realizzata in conglomerato ligneo, classe E1 di rilascio formaldeide, nello spessore mm 18 e rivestito con carta melaminica ad alta resistenza. Bordi perimetrali in ABS dello stesso colore spessore mm 0.4. Frontali in conglomerato ligneo, classe E1 di rilascio

(Additional optional handles available). Load-bearing legs for junctions, return desks and peninsulas made of grey, white or anthracite epoxy powder coated tubular sectioned steel 50x50 equipped with leveling feet. Frontal screens of different types can be applied by means of folded and painted sheet metal brackets to the desk system: In 4 mm thickness methacrylate. In melamine 18 mm thickness with 1mm ABS edging on all sides. In 18 mm thickness sound-absorbing material upholstered with Trevira CS fabric.

Drawer unit and furniture service unit

The structure is composed of a base, top, sides and back made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 0,4 mm thick perimeter edging in the same colour. The fronts are made of E1 formaldehde gas release 18 mm thick conglomerated chipboard wood covered with high resistance melamine paper. 1 mm ABS edging on all sides in the same colour, melamine top 25 mm thickness with ABS 1 mm edging. The inside of the melamine drawers are coated with an aluminium grey PVC finish with MDF 3 mm thickness bottom. Guided system anti corrosion treated metal runners with roller nylon bearings, and end-of-stroke stop. The drawers are equipped with a cushioned closure. The drawer unit is equipped with a stationary tray and four swivel braking wheels diameter 65 and simultaneous drawer locking by means of a foldable key in duplicate copies. The handles are in grey plastic by series. (Additional optional handles available).

Coplanar furniture

Made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 0,4 mm thick perimeter edging in the same colour. Metal junctions and adjustable PVC levelling feet from inside the cabinet via threaded steel pin. The back is made of conglomerated chipboard wood with 18 mm thickness. The doors are made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 1 mm thick perimeter edging in the same colour, metal hinges fixed to the sides with triple adjustment base. Melamine top with 25-30 mm thickness with ABS 2 mm edging. The handles are in grey plastic by series. (Additional optional handles available).

Coplanar drawer unit

Composed of a base, top, sides and back made of class E1 formaldehde gas release conglomerated chipboard wood with 18 mm thickness and covered with high resistance melamine paper. ABS 0,4 mm thick perimeter edging in the same colour. The fronts are made of E1 formaldehde gas release 18
